

Noble Park

Aniston, Alabama

portfolio

The Noble Park Development sprung from a deep love of the historic, turn of the century architectural heritage of Anniston's core founding fathers.

The planned unit development will restore all architecture to its original detail and grandeur. Styles and periods will be respected at all times while incorporating new amenities suitable for a new millennium business complex. "Green" technologies and construction techniques will be used at every juncture.

Geothermal heating and cooling, recyclable products, and eco-friendly materials will be used whenever applicable.

An Interdisciplinary Approach to Land Planning & Design
